

**■ Beyond the Region****FOR THE RECORD**

■ **Florida Atlantic University's** College of Engineering and Computer Science has begun offering a bachelor's degree program in geomatics. The program, to begin in the fall, responds to a 2005 change in Florida statutes requiring individuals seeking state licensure as professional land surveyors to be trained at the baccalaureate level. Faculty and staff based at the FAU Treasure Coast campus in Port St. Lucie are to deliver the program throughout South Florida.
